

Web Developer

Experienced Web Developer specializing in WordPress plugin, theme, and block development

EXPERIENCE

Owlth Tech Aug 2024 - Present

Web Developer

- Developed and maintained custom WordPress themes and plugins aligned with performance, security, and SEO best practices.
- Currently leading block-based development for dynamic, editor-friendly WordPress websites using custom blocks and modern workflows.
- Implement responsive design principles ensuring cross-browser compatibility.

PROJECTS

Slider Plugin (WordPress/Gutenberg)

- Developed a flexible slider plugin for WordPress and Gutenberg, supporting testimonials, products, images, and videos.
- Allows users to turn any core block into a dynamic slider with easy drag-and-drop controls.

Resume Analyzer (Web App with AI)

- Developed a web application leveraging AI to analyze and score resumes for job fit, using advanced parsing and intelligent keyword matching.
- Provides users with actionable feedback and visual insights to optimize their resumes.

Chess Engine (React & Python)

- Created a modern web chess platform for friend-vs-friend play with real-time move validation and a user-friendly interface.
- Built using React for the frontend and Python for the backend, featuring interactive gameplay and analysis tools.

CORE COMPETENCIES

- Full Stack Development
- Responsive Web Design
- SEO-friendly Web Design
- Team Leadership
- WordPress Development
- Custom Block Creation
- Web Accessibility
- Performance Optimization

EDUCATION

Bachelor of Engineering (B.E.) in Computer Engineering
Government Engineering College, Modasa

2023 - 2026 (Expected)

Pursuing advanced studies in software engineering and web technologies

Diploma in Computer Engineering
Government Polytechnic, Ahmedabad

2020 - 2023 CGPA: 8.76/10

Developed a solid foundation in programming and web development, paving the way for advanced studies and real-world projects.
